**NOVEMBER 30 - DECEMBER 12
PARIS, FRANCE**

COP 21

From Nov. 30 to Dec. 12, 2015, world leaders will meet in Paris, France, for the first time in over 20 years of UN negotiations, aim to achieve a legally binding and universal agreement on climate, with the aim of keeping global warming below 2°C.

The conference is expected to attract close to 50,000 participants including 25,000 official delegates from government, intergovernmental organisations, UN agencies, NGOs and civil society.

CAMP CLIMATE

The YMCA believes young people should be given opportunities to learn and advocate on environmental issues and that every young person has the ability to contribute to reducing environmental degradation and its consequences.

Based on the fact that strong youth participation during COP 21 is at risk for multiple factors, but specially because of the costs of staying in Paris and lack of opportunities for real coordination, the YMCA has created “Camp Climate”, a subsidised accommodation and programme opportunity.
